

Amplify Your Voice and Make a Difference with The Mortgage Action Alliance®

The **LARGER** the Group, The **LOUDER** the Voice.SM

The Mortgage Action Alliance® is the premier grassroots lobbying organization representing the entire real estate finance industry. Affiliated with the Mortgage Bankers Association (MBA), MAA enables you to speak directly with your members of Congress, state legislators and federal regulators about the impact of proposed legislation or regulations on your business.

Speak Up Now

With residential, commercial and multifamily issues on the Congressional and state legislative agendas, your political activism is vital. Issues affecting the industry are decided by elected officials who may or may not understand our interests and concerns. Therefore, they need to hear directly from you to explain how their actions affect you, your company and consumers.

Without your participation, we are all susceptible to regulations and legislation that would hinder our ability to provide more extensive housing choices, jobs and economic growth. You are a voter, an employer and a constituent. Your voice matters. But you need to use it.

How It Works

MAA is free (and open to all professionals who work in the real estate finance industry), it is non-partisan and it is easy to participate. When an issue relating to our industry hits a critical point (for example a vote is taking place) in Washington or your state, you will receive a "Call to Action." To respond to this action, you simply follow a few short steps to send a pre-drafted email stating the industry's position to your elected officials.

When you and thousands of MAA members communicate in a unified voice, we not only educate policymakers on the industry, but also achieve our legislative and regulatory priorities.

In Summary: Participation is Free, Easy, Quick... And Makes a Difference

"MAA is our one vehicle to create a groundswell of response when something critical is happening in Washington. It's the only way we can put collective pressure on Congress to do the right thing for mortgage finance when it is most important."
